Sexual Battery Suspect

On Thursday 10-18-2007, a white male in a burgundy 4-door sedan approached a group of females near downtown and asked if they needed a ride. The females declined. Shortly thereafter, one of the females from that group separated from the other females and went to her apartment on North Avenue. She received a knock on her door. Upon opening the door, the same white male from earlier tried to talk his way into the apartment. He also touched the hair and hip of the female. She told him to leave and he left after the female's roommates awoke. The suspect was described as being a white male, late 20's- early 30's, about 5'06"- 5'09", medium build. He was seen wearing a black long sleeved dress shirt, black pants, and black shoes. He may be driving a burgundy or white 4 door car, unknown make or model.
